To the Shareholders of Saudi Public Transport Company (a Saudi Joint Stock Company)

Introduction

We have reviewed the accompanying 30 September 2022 condensed consolidated interim financial statements of Saudi Public Transport Company ("the Company") and its subsidiaries ("the Group") which comprises:

Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with IAS 34, 'Interim Financial Reporting' that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' that is endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 September 2022 condensed consolidated interim financial statements of Saudi Public Transport Company and its subsidiaries are not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting' that is endorsed in the Kingdom of Saudi Arabia.

2. SIGNIFICANT EVENTS

The novel coronavirus (Covid-19) declared a pandemic by the World Health Organization at the beginning of 2020 Influencing group performance, and it is currently difficult to predict the full extent of the impact of this pandemic on the business and economy in which the Group operates.

The extent and duration of such impacts remain uncertain and dependent on future developments that cannot be accurately predicted at this time, such as the transmission rate of the virus, the extent and effectiveness of containment actions taken. The Group has taken containment steps until 30 September 2022 that have limited the negative impact of the virus on the Group's financial results.

The Group does not expect any significant and negative future impact on the going concern principle and bank commitments and the Group will continue to re-evaluate its position and the associated impact on a regular basis, bearing in mind that the competent authorities have eased the precautionary measures for the Covid-19 pandemic as well as stopping the application of distancing in the Holy Mosque and the Prophet's Mosque.

3. SIGNIFICANT ACCOUNTING POLICIES

3.1 Basis of preparation

The condensed consolidated interim financial statements for the nine-months period ended 30 September 2022 have been prepared in accordance with the International Accounting Standard (34) "Interim Financial Reporting" that endorsed in Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants.

The condensed consolidated interim financial statements should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2021 ("last annual financial statements"). These condensed consolidated interim financial statements do not include all of information and disclosures required to prepare a full set of financial statements prepared under IFRS. However, selected explanatory notes are included to explain events and transaction that are significant to an understanding of the changes in the Group's financial position and performance since the last annual financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.1 Basis of preparation (continued)

a) Basis of measurement

These condensed consolidated interim financial statements have been prepared under the historical cost convention, except for 'financial assets held at 'FVOCI' which are measured at fair value, employees' defined benefits liabilities which are recognized at the present value of future obligations using the Projected Unit Credit method (PUC). The Group's investments in its associates and joint venture are accounted for using the equity method. Further, the condensed consolidated interim financial statements are prepared using the accrual basis of accounting and the going concern concept.

b) Functional and presentation currency

The condensed consolidated interim financial statements are presented in Saudi Arabian Riyals ("SAR"), which is also the Group's functional currency. All amounts have been rounded to the nearest thousand (thousands of Saudi Arabian Riyals), unless otherwise indicated.

c) Use of estimates and judgments

The preparation of Group's condensed consolidated interim financial statements in accordance with IFRS as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements as endorsed by Saudi Organization for Chartered and Professional Accountants require management to make judgments, estimates, and assumptions that affect the reported amounts of revenues, costs, assets and liabilities, and the disclosure of contingent liabilities, at the reporting date. Actual results may differ from these estimates.

The significant estimates made by the management when applying the Group's accounting policies and the significant sources of uncertainties of the estimates were similar to those shown in the Group's last annual consolidated financial statements.

d) Fair Value Measurement

A number of the Group's accounting policies and disclosures require the measurement of fair value, for both financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values for financial assets and liabilities. This includes a team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the chief financial officer.

The team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of the Standards, including the level in the fair value hierarchy in which the valuations should be classified. Significant valuation issues are reported to the Group's audit committee.

Notes to the Condensed Consolidated Interim Financial Statements (Unaudited)

(Expressed in thousands of Saudi Arabian Riyals)

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.1 Basis of preparation (continued)

When measuring the fair value of assets or liabilities, the Group uses market observable data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in capital markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data. (unobservable inputs).

If the inputs used to measure the fair value of an asset or liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

Management assessed that the fair values of cash and cash equivalents, trade receivables Unbilled receivables and other current assets, trade and other payables and current liabilities approximate their carrying values largely due to the short-term maturities of these financial instruments.

Management assessed that the carrying value of the fixed and variable commission rates bearing term Murabaha financing approximates their fair value due to the fact that they bear commission rates that reflect commission rates prevailing in market for similar financing and loans. As a result, the discounted future cash value of financing and loans is not materially different from its current carrying amount.

3.2 Summary of significant accounting policies

The accounting policies adopted in the preparation of these condensed consolidated interim financial statements are consistent with those followed in the preparation of the Group's consolidated financial statements for the year ended 31 December 2021, except for the adoption of new standards that are effective as of 1 January 2022, which were explained in the annual financial statements of the group and which have no material impact on the condensed consolidated interim financial statements of the group. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.
